WORK EXPERIENCE

Website Developer & Tech Lead
Digivizual Company, Noida Sector 15

Oct 2025 – Present

- Leading website development projects and mentoring a team of 5 interns.
- Successfully built and deployed 8 fully responsive websites within one month.
- Leveraged modern technologies like Next.js, React.js, Sass, and Tailwind CSS.
- Ensured high-quality, scalable, and pixel-perfect frontend designs while maintaining best practices in performance optimization.
- Collaborated with clients and team members to deliver projects efficiently within tight deadlines.

Software Engineer
Aadvik Teklabs Company, Bengaluru

Dec 2024 – Aug 2025

- Developed and maintained web applications using Next.js, TypeScript, and SCSS.
- Replicated pixel-perfect UI from Figma files into Next.js & React.js ensuring reusability.
- Wrote modular and reusable code for scalability and performance.
- Integrated dynamic components, API handling, and state management for seamless user experience.

Full Stack Web Developer Intern
TechTrue Company, Delhi

Mar 2023 – Jan 2024

- Improved and updated frontend content on client websites.
- Used frontend stacks like React.js, HTML5, CSS, JavaScript, Tailwind, and Bootstrap.
- Optimized website performance by reducing page load time from 8s to 3s (60% improvement in user experience).

PROJECTS

SGI Lighting [LINK]

- Developed multiple pages and styled the entire website for mobile responsiveness.
- Fixed a critical iOS compatibility bug, ensuring smooth functionality on Apple devices.

mySGI (Phase 2)

- Designed and implemented several frontend pages for the project.
- Worked with TypeScript and Next.js to improve scalability and maintainability.

Sync Master Software (Internal Company Tool) [LINK]

- Built a Human Resource Management System for internal company use.
- Implemented features such as attendance tracking, leave management, performance evaluation, and salary slip generation.
- Focused on responsive UI/UX to ensure an intuitive employee experience.
